The Case Concerning Provisions for P.O.W.s

April 22nd, 1944.

P.O.W. Provision 22

(
Note of the Chief of the P.O.W. Administration Section)

Though there have been many improvements in the sanitary conditions of the P.O.W.s respectively taken, in accordance with the note of the Vice Minister about improvement in P.O.W. administration, No. 696 of the secret documents of the Asia Section of the War Ministry, as there is liable to be the sick in recovering their health, in the indiscriminate decrease of the supply of food, I wish you to take measures to give elasticity in the amount of food supply given according to the actual conditions of each patient.

The Treatment of P.O.W.s and Other
Detainees During Air-Raids

February 28, 1944 P.O.W. Guard 4.

(
Note of the Chief of the P.O.W. Administration Section)

About the above subject, in the meeting of the chiefs of P.O.W. camps, last year, we were informed about the policies of the central authorities. As the enemy's air-raids seem to be coming nearer to us and their blind attacks at cities are now thought possible, I want you to adopt a prudential policy and have this idea understood thoroughly by personnel concerned at their places of work so that they may be able to retire to safe places, and so that the people, especially those who are always in close contact, such as the workers in factories may not resort to lynching and the like from the passing excitement.
